

fadeScreen

From Mafia2-Online

Description

This function is used to fade the clients screen.

Parameters

```
(float time [, bool fadein = true])
```

float time	The time period of how long the screen should be faded for (milliseconds)
------------	---

bool fadein	Should the screen fade back in or not
-------------	---------------------------------------

Example

?

```
lfadeScreen( 2000 ); // Fade the clients screen for 2000 (2 seconds) milliseconds
```
