

timer::IsActive

From Mafia2-Online

Description

This function is used to check if a timer is running.

Parameters

```
()
```

Return Values

- bool - true if the timer is active, else false

Example

```
?
1 local task;
2
3 function completeTask( text )
4 {
5     // Output "Task Completed!"
6     sendPlayerMessageToAll( text );
7 }
8
9 function init()
10{
11    // Create a timer to send "Task Completed" in 10 minutes time
12    task = timer( completeTask, 600000, 0, "Task Completed!" );
13}
14addEventHandler( "onScriptInit", init );
15
16addCommandHandler( "istaskcomplete",
17    function( playerid )
18    {
19        // Check to see if the timer is still active
20        if( task.IsActive() )
21        {
22            // The timer is still active
23            sendPlayerMessage( playerid, "The task isn't completed yet!" );
24        }
25        else
26        {
27            // The timer is no longer active, completeTask() has been called
28            sendPlayerMessage( playerid, "The task is completed!" );
29        }
30    }
31);
```
