

mysql connect

From Mafia2-Online

Description

This function creates a MySQL handler and attempts to connect to a MySQL database.

Parameters

```
(string hostname, string username, string password,  
string database)
```

string hostname The hostname of the database to connect to

string username The username to use to connect to the database

string password The password to use to connect to the database

string username The name of the database to use

Example

```
?  
1local handler;  
2  
3function scriptInit( )  
4{  
5    handler = mysql_connect( "localhost", "root", "iLoVeGaBe", "m2db" );  
6    return 1;  
7}  
8addEventHandler( "onScriptInit", scriptInit );
```
