

# callEvent

From Mafia2-Online

## Description

This function is used to call an event created by addEventHandler

## Parameters

```
(string event, ...)
```

string event      The event name

...                (Optional) Arguments to pass onto the event

## Return Values

- 0 - The event was not called
- 1 - The event was called

## Example

```
?
1 function init()
2 {
3     // Call customEvent and pass 53 as an argument
4     callEvent("customEvent", 53);
5 }
6 addEventHandler( "onScriptInit", init );
7
8 function customEventFnc( total )
9 {
10    // This would output "Total Is: 53"
11    log( "Total is: " + total );
12}
13addEventHandler ( "customEvent", customEventFnc );
```
